

January 11, 2006

Commissioners,

I have thoroughly reviewed and support the ARRL's Regulation by Bandwidth" Petition (RM-11306) and strongly urge the FCC to move quickly to adopt the recommendations contained therein.

I believe that this action will promote better utilization of spectrum allocated to the Amateur Service and will also encourage further development of new digital modes of communication.

Thank you for your consideration.

Sincerely,

Mark A. Brown, KD5L
